

# Deliivo.

Shared rides for daily commutes and city-to-city travel

**Founder:** Rajesh Kumar Mishra

HQ: Estonia

# TRAVEL IS EXPENSIVE & INEFFICIENT

## Within cities

Daily commuting is costly and stressful, except free public transportation in Tallinn.

## Between cities

Inter-city travel is limited, inflexible, or expensive.

## Existing options fail

Ride-hailing is too expensive, and buses/trains have fixed schedules.

**Result: People travel alone. Seats stay empty. More CO2 emission.**

# THE UNIFIED CARPOOL PLATFORM

## Intra-City

Share rides within the city for daily commutes (Home ↔ Work).

## Inter-City

Planned long-distance trips between major Estonian cities (Tallinn ↔ Tartu).

## One Platform

Same app, same trust layer, same frictionless payment system.

"We help people share rides on the same route—daily or long-distance—at a lower cost."

# SMART ROUTE MATCHING

## Route Matching

Intra-city daily commutes and planned inter-city trips matched in real-time.

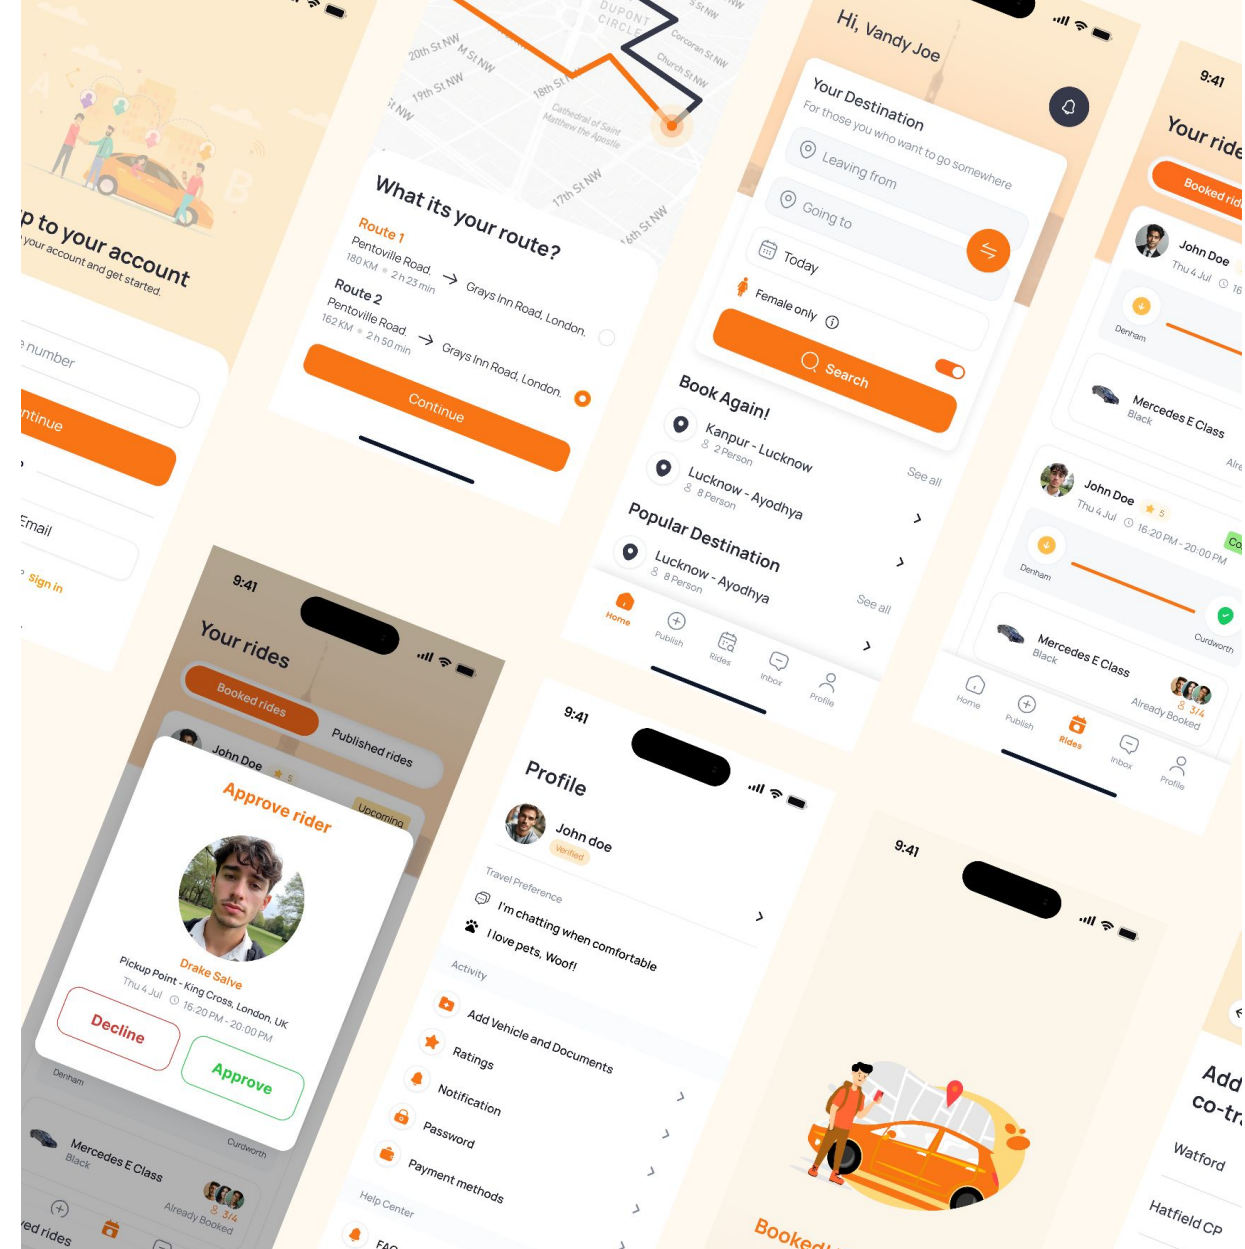

## Verified Profiles

Trust layer with ID verification and community ratings for every driver and rider.

## Smart Payments

Automatic pricing and seamless in-app payments for a hassle-free experience.

# €150B MARKET OPPORTUNITY

**CAGR: 15–20%**

Shared mobility is growing rapidly across Europe.

**€120–150**

Targeted average revenue per user annually.

# SIMPLE COMMISSION MODEL

# 25%

## FLAT COMMISSION

Applied to both Intra and Inter city trips

### Intra-city

25% per ride for daily commutes and urban travel.

### Inter-city

25% per trip for long-distance and city-to-city travel.

## Revenue Streams

- ✓ Per-ride transaction fees
- ✓ Future: Employer SaaS portals
- ✓ Future: Premium safety features

## Primary Revenue Stream

**Per-ride commission from every successful match.**

# WHY DELIIVO WINS

## Trust & Convenience

Cheaper than taxis, more reliable than public transport, and built on a foundation of verified community trust.

## No Direct Competition

No existing platform offers scheduled intra-city + inter-city carpooling in Estonia. We own the first-mover advantage.

## Unified Network

Daily commuting + longer trips on the same platform increases user engagement and creates powerful network effects.

# THE CLEAR COMPETITIVE EDGE

| Feature            | Deliivo | BlaBlaCar | Bolt/Uber | Public Transport |
|--------------------|---------|-----------|-----------|------------------|
| Intra-city commute | ✓       | ✗         | ✗         | ✓                |
| Inter-city rides   | ✓       | ✓         | ✗         | ✓                |
| Daily repeat usage | ✓       | ✗         | ✗         | ✗                |
| Low cost           | ✓       | ✓         | ✗         | ✓                |
| Scheduled rides    | ✓       | ✓         | ✓         | ✗                |

# GO-TO-MARKET STRATEGY

## Phase 1: Intra-City Density

Focus on business parks (Ülemiste City) and residential clusters in Tallinn.

-  Business Parks (Ülemiste City)
-  Employer Partnerships
-  Residential Clusters

## Phase 2: Inter-City Expansion

Unlock Tallinn ↔ Tartu/Pärnu routes using existing verified user base.

-  Popular City Pairs (Tallinn-Tartu)
-  Weekend & Leisure Travel
-  Business Trip Corridors

Channels: Employer Partnerships & Referral Rewards

Target CAC: €5–€10

# THE FOUNDATION TEAM

**Rajesh Kumar Mishra**

Founder & CEO

**Ansul**

Co-Founder & CTO

**Puja**

Co-Founder & CPO

# SUSTAINABILITY IMPACT

## 230 Tons

### CO<sub>2</sub> emissions reduced in Year 1

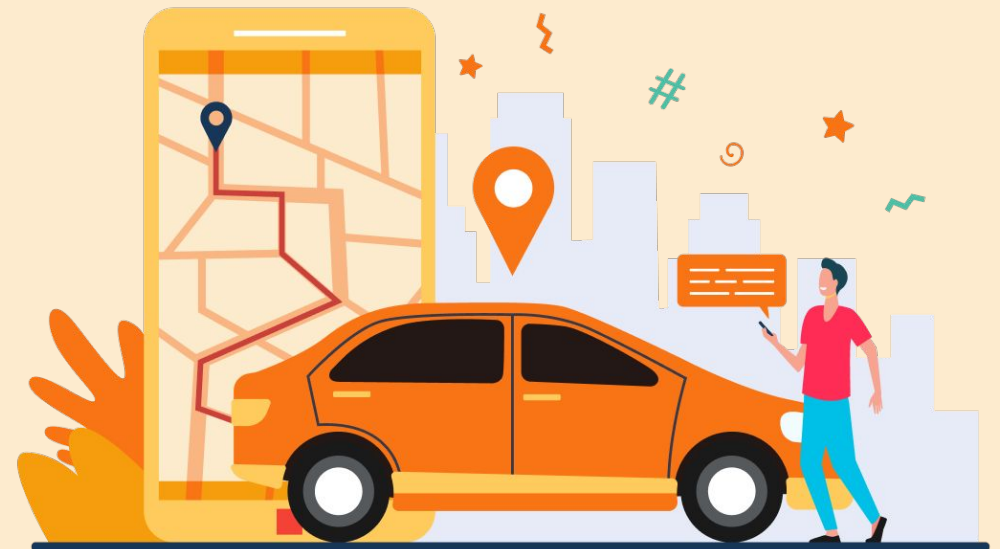

By increasing car occupancy, we directly support the EU Green Deal targets.

50% lower carbon footprint per trip

Higher seat utilization = fewer cars

# THE PATH FORWARD

## Raising €200k

for 10% Equity

45% Product

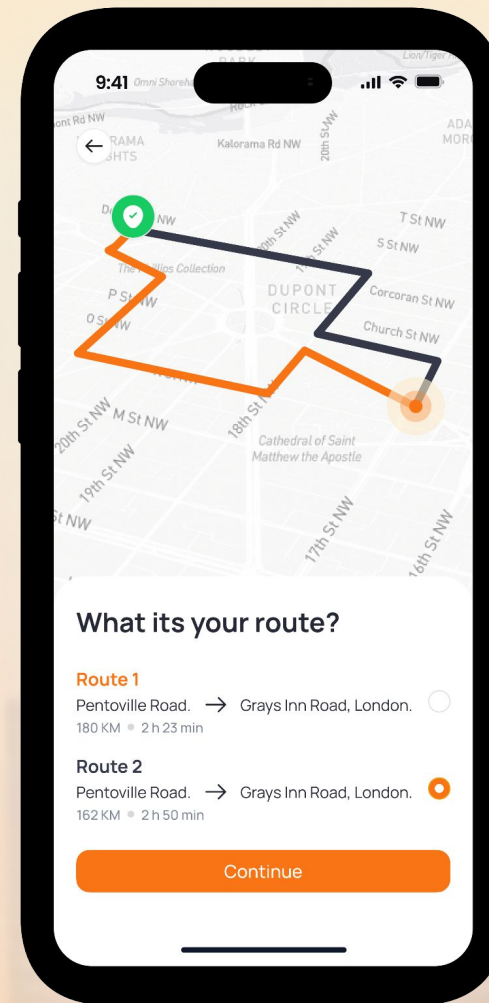

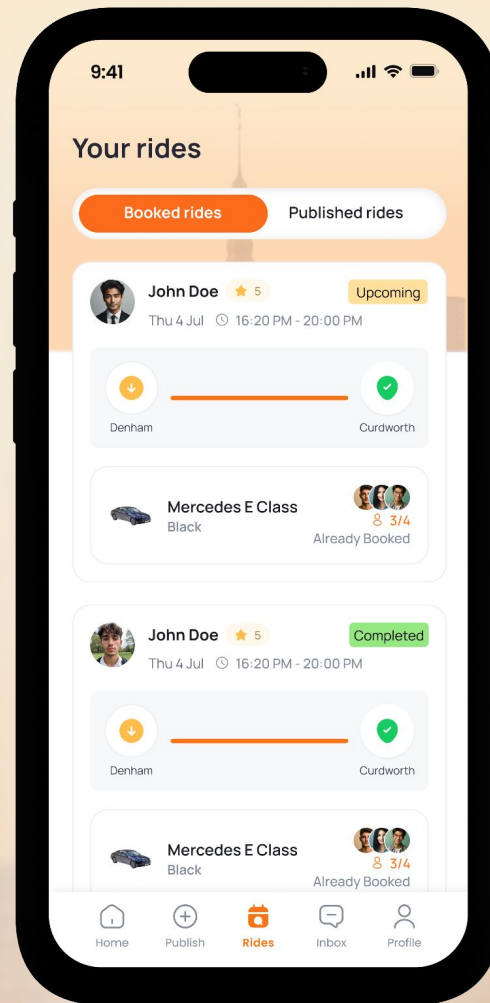

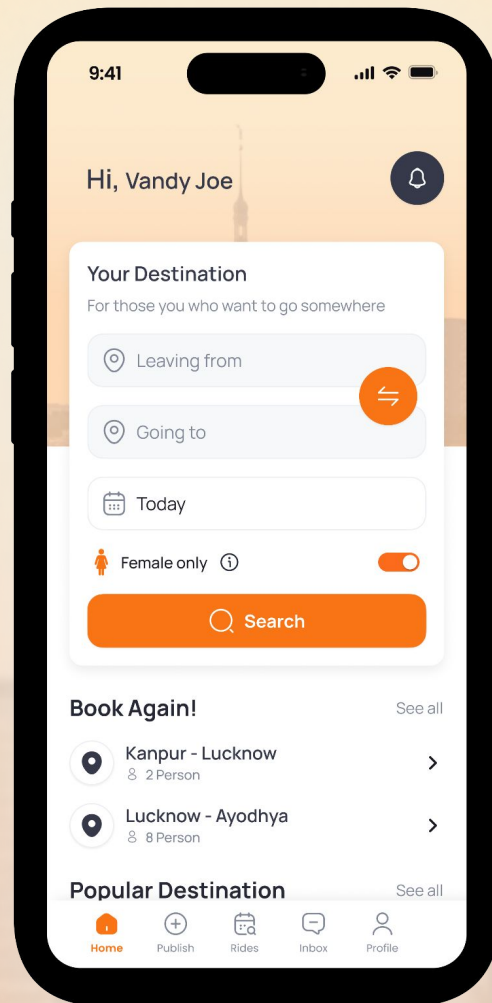

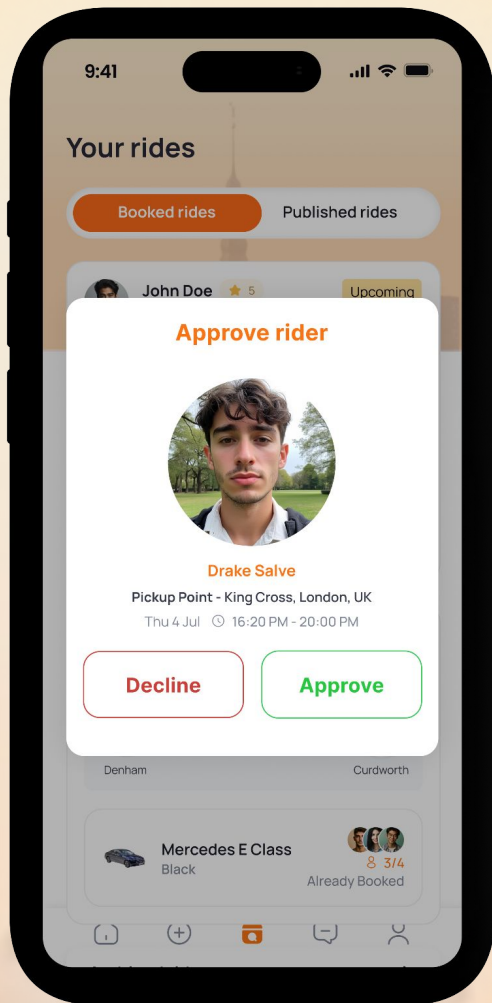

30% Growth

15% Trust

10% Ops

## Our Vision

Become Europe's default carpool network.  
One app for every daily and long-distance  
ride.

# Thank You!

---

Join us in revolutionizing shared mobility across Europe.
